SUPPLEMENT TO  
REPORT NO.

An artillery training regiment in Peiping under the command of the North China Military Area had completely changed to Soviet equipment by 20 January, and began technical and combat training on 1 February. This is the first motorized artillery unit in the Chinese Communist Army and it has the same guns, tractors, and communications equipment as a Soviet artillery unit.\*

25X1A

\* [REDACTED] Comment. [REDACTED] from a Nationalist military observer, reported that an artillery regiment in Peiping was being trained by Soviet instructors and was equipped with Soviet-made equipment.
